

TARGETS: Regional Action Plan on Albinism in Africa (2017–2021)

These are the targets and indicators for guiding and monitoring the implementation of the Regional Action Plan on albinism in Africa (2017–2021). The Regional Action Plan sets out 15 specific and concrete measures centred around four key pillars: **prevention, protection, accountability** and, finally, **equality and non-discrimination**. The Regional Action Plan is also deeply guided by the 2030 Sustainable Development Agenda and its principle that **no one should be left behind, beginning with those furthest behind first**. A report on the Sustainable Development Goals (SDGs) and the enjoyment of human rights by persons with albinism will be submitted to the United Nations General Assembly in 2018.

These targets and indicators for the implementation of the Regional Action Plan have been guided by the United Nations human rights indicators and by the SDGs and related targets and indicators. Where SDGs targets and indicators are directly relevant for triggering actions and generating data that contribute to the implementation of the Regional Action Plan, these are mentioned. Otherwise, where there are no links to SDGs targets and indicators, it should be understood that the targets and indicators of the Regional Action Plan become mediums to contextualize the general goals of the SDGs to the situation of persons with albinism.

A. Preventive measures

<i>Priority area</i>	<i>Responsible Party</i>	<i>Time Frame</i>	<i>Monitoring</i>	<i>Implementation strategies</i>
----------------------	--------------------------	-------------------	-------------------	----------------------------------

SDG 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

SDG 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

1	Public education and awareness-raising campaigns, maintained (not ad hoc) for at least two years	All Stakeholders	I to S	Indicators	Ideas on how/comments
1.1	By 2021, carry out <u>direct</u> public education on albinism (emphasis on the rural and community level, schools and homes) and reaching between 25% and 50% of the population of each country, according to its size (based on proportionality).		I to M	<ul style="list-style-type: none"> Proportion of the population directly reached, disaggregated by urban and rural areas <p>Source of information: Report/other official publication of credible and reliable quality</p>	<ul style="list-style-type: none"> Demystify albinism through the creative use of media Involve faith-based organizations and traditional healers, persons with albinism and their family members Disseminate the image of persons with albinism in public materials Use both traditional and social media Train media personnel on the issue

1.2	In countries with records of attacks, by 2021 carry out public education on albinism in all areas where attacks have been reported – particularly rural areas		I to M	<ul style="list-style-type: none"> Number of times hotspots reached, disaggregated by urban/rural, age and gender. <p>Source of information: Report/other official publication of credible and reliable quality</p>	
1.3	By 2021 carry out 3 innovative public education programmes with high impact, reaching the whole country including through the use of both traditional and social media, including music and entertainment		M	<ul style="list-style-type: none"> Frequency of presence on social and traditional media with high audience and wide outreach Geographical and demographic coverage Proportion of the national population reached, disaggregated by type of media <p>Source of information: Report/other official publication of credible and reliable quality</p>	
1.4	By 2021, strengthen human rights capacities of regional organizations, governments, national human rights institutions and civil society organizations to protect the human rights of persons with albinism			<ul style="list-style-type: none"> Number of national actions and programs implemented by regional organizations, governments and national human rights institutions and civil society organizations <p>Source of information: Report/other official publication of credible and reliable quality</p>	
2	Data collection: disaggregated data and needs assessment (including security needs)	State	M to L		
2.1	By 2021, national census should provide an accurate record of the population with albinism, Link to SDG target(s): <i>17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small is-</i>		M to L	<ul style="list-style-type: none"> Number of countries that involved persons with albinism in the design and conduct of national census Number of countries that adopted a national census methodology with “albinism” as a specific indicator. <p>Source of information: Report/other official publication of</p>	<ul style="list-style-type: none"> Allow people to choose “albinism” specifically from a list in a census Gather data proactively in the disability, health and education sectors

	<i>land developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts</i>			<p>credible and reliable quality</p> <p>Link to SDG indicators:</p> <ul style="list-style-type: none"> • <i>17.18.1 Proportion of sustainable development indicators produced at the national level with full disaggregation when relevant to the target, in accordance with the Fundamental Principles of Official Statistics</i> • <i>17.18.2 Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics</i>
2.2	<p>By 2021 amass through evidenced-based methods, data on persons with albinism per country, disaggregated at minimum by sex, gender, and age, and health status (vision and skin cancer), as well as types of school and families.</p> <p>Link to SDG target: <i>17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts</i></p>		M	<ul style="list-style-type: none"> • Number of countries that have produced reports and other official publications of credible, reliable quality with disaggregated data on persons with albinism <p>Source of information: Report/other official publication of credible and reliable quality</p> <p>Link to SDG indicator(s):</p> <ul style="list-style-type: none"> • <i>17.18.1 Proportion of sustainable development indicators produced at the national level with full disaggregation when relevant to the target, in accordance with the Fundamental Principles of Official Statistics</i> • <i>17.18.2 Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics</i>
2.3	<p>By 2021 conduct national needs-assessments (including security, integration and reintegration needs) of persons with albinism in each country.</p> <p>Note: Could be a pilot project or a country-wide project.</p>		M	<ul style="list-style-type: none"> • Number of needs-assessments pilots projects or national-wide projects completed • Extent of consultation and participation of persons with albinism <p>Source of information: Report/other official publication of</p>

	<p>Link to SDG target(s): <i>16.1 Significantly reduce all forms of violence and related death rates everywhere</i></p>			<p>credible and reliable quality</p> <p>Link to SDG indicator: <i>16.1.4 Proportion of population that feel safe walking alone around the area they live</i></p>	
2.4	<p>In countries with records of attacks, by 2021, accurately document and publish information on every attack and government actions taken on them</p> <p>Link to SDG target: <i>16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children</i> <i>16.10 Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements</i></p>		M to L	<ul style="list-style-type: none"> • Number of and regularity of reports and other official publications of credible and reliable quality on documentation of attacks and government actions • Number of reports made public through official sites, the media or other type of dissemination activity. <p>Source of information: Report/other official publication of credible and reliable quality</p> <p>Link to SDG indicators: <i>16.2.2 Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation</i> <i>16.2.3 Proportion of young women and men aged 18-29 years who experienced sexual violence by age 18</i> <i>16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months</i> <i>16.10.2 Number of countries that adopt and implement constitutional, statutory and/or policy guarantees for public access to information</i></p>	
3	Root causes — identify and address	State with support of other stakeholders with specialized knowledge and investigative techniques	I to M		
3.1	In countries with records of attacks, by 2021, conduct one evidence-informed		I to M	<ul style="list-style-type: none"> • Number of countries that have a report on root 	<ul style="list-style-type: none"> • Conduct research — legal, anthropological, academic and other

	report to identify the root causes of attacks, assault and/or other human rights violations against persons with albinism therein			<p>causes of attacks of credible and reliable quality</p> <ul style="list-style-type: none"> • Extent of consultation and participation of persons with albinism <p>Source of information: Report/other official publication of credible and reliable quality</p>	<p>forms — on root causes¹ and address them</p> <ul style="list-style-type: none"> • Conduct research, including research on cross-border trafficking in body parts
3.2	By 2021, develop short, mid and long-term national legal and policy framework with specific measures for women and children with albinism, based on evidence-informed research and investigative research, addressing root causes of attacks		M	<ul style="list-style-type: none"> • Number of national legal and policy frameworks addressing root causes of attacks • Extent of consultation and participation of persons with albinism <p>Source of information: Official law/policy document of the State and Report/other official publication of credible and reliable quality</p>	

B. Protection measures

<i>Priority area</i>	<i>Responsible Party</i>	<i>Time Frame</i>	<i>Monitoring</i>	<i>Implementation strategy</i>
----------------------	--------------------------	-------------------	-------------------	--------------------------------

¹

The root causes identified in the report of the Independent Expert include misbeliefs about albinism, witchcraft, weak law enforcement, gaps in laws related to trafficking in body parts and ambiguity in the laws and practice of witchcraft and traditional medicine. See A/71/255.

SDG 1: End poverty in all its forms everywhere
SDG 3: Ensure healthy lives and promote well-being for all at all ages
SDG 5: Achieve gender equality and empower all women and girls
SDG 10: Reduce inequality within and among countries

SDG 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

1	Effective law enforcement in response to attacks and violations against persons with albinism	State	I to M	Indicators	<i>Ideas on how/comments</i>
1.1	<p>By 2021, ensure full access to police and other security apparatuses at the community level</p> <p>Link to SDG target:</p> <ul style="list-style-type: none"> • <i>16.1 Significantly reduce all forms of violence and related death rates everywhere</i> • <i>16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all</i> 		M	<ul style="list-style-type: none"> • Proportion, per country, of persons with albinism that feel safe walking around the area they live • Number of relevant communities with improved, sufficient and adequate police presence and protection in each country <p>Link to SDG indicator:</p> <ul style="list-style-type: none"> • <i>16.1.4 Proportion of population that feel safe walking alone around the area they live</i> • <i>16.3.1 Proportion of victims of violence in the previous 12 months who reported their victimization to competent authorities or other</i> 	<ul style="list-style-type: none"> • Train and resource all law enforcement personnel, including border guards • Strengthen community-based protection structures, beginning with traditional authority • Reinforce the structures of homes and living environment • Equip persons with albinism with the means to protect themselves • Ensure witness protection if there is a fear of retaliation
1.2	<p>By 2021 provide security goods to persons with albinism in the whole country, in particular to those who have been victims of attack</p> <p>Link to SDG target:</p> <ul style="list-style-type: none"> • <i>16.1 Significantly reduce all forms of violence and related death rates everywhere</i> 		I	<ul style="list-style-type: none"> • Number of security persons with albinism and their families who have received objects for effective security enhancement and the proportion of the population with albinism they represent • Coverage of hotspots (location where there has been or there is a high number of attacks) attended by the delivery of security goods <p>Source of information: Report/other official publication of credible and reliable quality</p> <p>Link to SDG indicator:</p> <ul style="list-style-type: none"> • <i>16.1.4 Proportion of population that feel safe walking alone around the area they live</i> 	<ul style="list-style-type: none"> • Review criminal law frameworks to gauge their ability to deal with attacks and violations against persons with albinism • Include trafficking in body parts as a high crime • Prevent witchcraft-related crime • Regulate the practices of traditional healers • Include colour as a prohibited ground of discrimination

2	Review of legislative frameworks, including with regard to trafficking in body parts, witchcraft and traditional medicine, and recognition of colour as a ground of discrimination	State	I to L		
2.1	By 2021, adopt law (or provisions) and/policy prohibiting trafficking in body parts <i>Link to SDG targets:</i> <ul style="list-style-type: none"> • 5.2 Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation • 10.3 Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard • 16.b Promote and enforce non-discriminatory laws and policies for sustainable development 		I to L	<ul style="list-style-type: none"> • Number of countries that have adopted law or policies prohibiting trafficking in body parts • Whether or not national policy and legal frameworks are in place prohibiting trafficking in body parts <p>Source of information: Official law/policy document of the State</p> <p>Link to SDG indicators: 10.3.1 & 16.b.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law</p>	
2.2	By 2021, adopt law (or provisions) and/policy prohibiting harmful practices from witchcraft practice <i>Link to SDG targets:</i> <ul style="list-style-type: none"> • 5.3 Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation • 10.3 Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory 		I to L	<ul style="list-style-type: none"> • Number of countries that have adopted law or policies prohibiting harmful practices from witchcraft practice • Whether or not national policy and legal frameworks are in place prohibiting harmful practices related to witchcraft and related beliefs and practice <p>Source of information: Official law/policy document of the State</p> <p>Link to SDG indicators:</p>	

	<p><i>laws, policies and practices and promoting appropriate legislation, policies and action in this regard</i></p> <ul style="list-style-type: none"> • <i>16.b Promote and enforce non-discriminatory laws and policies for sustainable development</i> 			<ul style="list-style-type: none"> • <i>10.3.1 &16.b.1 Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law</i> 	
2.3	<p>By 2021, adopt law (or provisions) and/policy prohibiting harmful practices from traditional medicine</p> <p><i>Link to SDG targets:</i></p> <ul style="list-style-type: none"> • <i>5.3 Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation</i> • <i>10.3 Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard</i> • <i>16.b Promote and enforce non-discriminatory laws and policies for sustainable development</i> 		I to L	<ul style="list-style-type: none"> • Number of countries that have adopted law or policies prohibiting harmful practices from traditional medicine Source of information: Official law/policy document of the State • Whether or not national policy and legal frameworks are in place prohibiting harmful practices from traditional medicine <p>Source of information: Official law/policy document of the State</p> <p>Link to SDG indicators:</p> <ul style="list-style-type: none"> • <i>10.3.1 &16.b.1 Proportion of the population reporting having personally felt discriminated against or harassed within the previous 12 months on the basis of a ground of discrimination prohibited under international human rights law</i> 	
2.4	<p>By 2021, adopt law (or provisions) and/policy prohibiting discrimination on the basis of “colour”</p> <p><i>Link to SDG targets:</i></p> <ul style="list-style-type: none"> • <i>10.3 Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard</i> 		I to L	<ul style="list-style-type: none"> • Number of countries that have adopted law or policies prohibiting discrimination on the basis of “colour” • Whether or not national policy and legal frameworks are in place prohibiting discrimination on the basis of “colour” <p>Source of information: Official law/policy document of the State</p> <p>Link to SDG indicators:</p>

Notes

The following definitions are used in the description of the Plan:

- (a) The term “stakeholders” comprises every relevant group or body, including States, civil society, national human rights institutions, and regional and international human rights and development mechanisms;
- (b) “Short term” means between one and two years; “medium term” means between three and five years; and “long term” means more than five years.
- (c) * “I”: Immediate term. “S”: Short term = 1 to 2 years; “M:” Medium term = 3 to 5 years; “L:” Long term = immediate and on.
